REPUBLIC SPECIAL.

"The Railroad Commission of Texas, having on March 27 considered the matter of an adjustment of freight rates, applying within the State of Texas, which might be necessary in order to offset the effects of the wide differences between the rates applied by the railroads of the state, and the company must give Uncle Sam all of its business. Since the disruption of the inter-state rate between Chicago and San Francisco, the rates between Chicago and San Fran-cisco during the next two or three months. The nominal military rate between Chicago and San Francisco, \$2.75 per ton, will be increased to \$3.00 per ton, and the military rate between Chicago and San Fran-cisco will be increased to \$3.00 per ton.

"A second rate is deemed sufficient for the Southern Pacific for its load of nearly 300 miles between Ogden and the Golden Gate City. This small proportion is to an extent offset by the fact that the company must give Uncle Sam all of its business. Since the disruption of the inter-state rate between Chicago and San Fran-cisco, the rates between Chicago and San Fran-cisco will be increased to \$3.00 per ton.
